

Councillor Report

Oct 21st, 2021

Finished Munis 101 on Oct 5th.

It was a good refresher on Municipal governance. Interesting interactions with other councils and information on how they handle issues within their communities. Noted that e-mail bursts are becoming quite useful in providing communication updates with public.

Trails

Met with Rodney and associate from Alexander, with several members of our community and our Mayor on Oct 16th. Walked the area on east side of Lakeshore Dr., and discussed issues on Quad Trails. Trail discussion to be brought up at council meeting Oct 21st.

Lagoon

Will be meeting with Engineers from Morrison Hershfield, and Lagoon Manager this Friday Oct 22nd. We should expect a cost of next engineering studies so that we can proceed with grant applications.

Councillor Michael Harney
